SUMMARY

An enthusiastic Frontend developer around 2 years of hands-on experience in crafting dynamic and user-centric web applications. My journey of web development has been marked by a passion for delivering robust solutions that marry functionality with aesthetics seamlessly.Proficient in React.js, HTML, CSS, and JS leveraging the power of React to build interactive and responsive user interfaces.

EDUCATION

Al-Ameen Engineering College **July 2019 - May 2023**
Bachelor of Engineering in Computer Science

INTERNSHIP

Frontend Intern | Energetics AI **Mar 2023 - July 2023**

PROJECTS

From Around: Events, Food, & Social

- Learnt **ReactJS**, specializing in functional components as an intern.
- Contributed in **Customer site** for resolving bugs and developing **Custom hooks** to enhance code maintainability.
- Collaborating with backend teams to integrate both **GraphQL** and **REST API's**, enabling efficient data retrieval and management for **Admin dashboards**.
- Used **Figma** to refine designs and implement UI improvements, ensuring optimal image and icon usage for a polished user experience

Idolize: Trump Card Game

- Integrated **REST APIs** for seamless data management within the admin dashboard.
- Developed and implemented robust **CRUD functionalities** across the entire dashboard.
- Leveraged **Bootstrap** for rapid front-end development. Significantly accelerated the release cycle and also maintained a consistent visual style.

PROFESSIONAL EXPERIENCE

Software Engineer - I | Energetics AI **Aug 2023 - Present**

PROJECTS

Mindn - Mental Wellness Platform

- Developed and implemented a **Progressive Web App (PWA)** for the entire customer-facing platform, enhancing user experience with features like offline functionality and improved mobile responsiveness. This involved building and integrating over 30+ React components Folders.
- Designed and developed **custom report templates** using **HTML**, **CSS**, and **JavaScript**, integrated with the **JsReport tool**, to generate **dynamic health scores** and provide valuable insights to stakeholders.

Splendid : Next-Gen Social Commerce Platform

- Implemented secure and user-friendly **authentication mechanisms** by integrating **OAuth 2.0** with **Google**, **Adobe, Twitter**, and **Facebook**. This streamlined the user experience by allowing seamless login and data retrieval from third-party platforms.

Conference Customer: SDK

- Used **JITSI** service and implemented SDK with protected functionalities using **Typescript** to integrate into conference customer platform.

Conference Customer: Video conferencing platform

- Developed a customer-facing website from scratch using **Create React App (CRA)**, demonstrating proficiency in React's component-based architecture and best practices.
- Utilized **Redux** for efficient **state management**, enabling predictable data flow and improving application performance and maintainability.
- Implemented robust routing, including **protected routes**, to control user access and enhance website security.
- Integrated **Google Calendar API** for seamless meeting scheduling, enhancing user experience and providing valuable features for users.
- Developed a fully **Responsive Website** that adapts seamlessly to various screen sizes and devices, ensuring a consistent and optimal user experience across all platforms.

Energetics Website (old)

- Developed a fully responsive company website using **media queries** and CSS animations to enhance user engagement.
- Implemented cross-browser compatibility and successfully deployed the site on both **Vercel** and **Netlify** platforms.

Whatsapp Customer Support

- Developed an admin dashboard using **Vite developement server**, a modern build tool, for enhanced performance and development experience.
- Implemented efficient **CRUD operations** for **managing templates**, adhering to the complex specifications of the **Meta WhatsApp API**.
- Designed and implemented a robust chat feature, enabling both personal messaging and the seamless distribution of organization-level templates to all users.

Keyon: Employee Travel Management System

- Implemented robust **CRUD functionalities** for **vendors** and **organization** dashboards utilizing both **GraphQL** and **REST APIs** for efficient data management.
- Developed and implemented complex logic for a **calendar system**, incorporating features such as **holiday level management** to enhance user experience and streamline scheduling processes.

TECHNICAL SKILLS

Programming Languages: Javascript, Typescript
Frontend Technologies:

- **Markup/Styling:** HTML, CSS
- **Frameworks/Libraries:** ReactJS
- **Statemanagement Tool:** Redux ToolKit
- **CSS Framework:** Bootstrap

Version Control and Collaboration Tools: Jira, Git, Bitbucket
