Summary

Results-driven Frontend Developer with **3+ years of experience** building scalable, high-performance web applications using **React.js, Next.js, Redux Toolkit, TypeScript, and Node.js**. Experienced in developing modern SaaS platforms, integrating REST APIs, building reusable component libraries, and collaborating with cross-functional teams. Currently contributing to an **AI-powered Procurement Intelligence SaaS platform** delivering scalable and intuitive user experiences.

Professional Experience

UI Developer *Jan 2026 – Present*
Beroe Inc

PROJECT – Beroe MAX
React.js, Next.js, TypeScript, Redux Toolkit, REST APIs, Subframe

- Working on **Beroe MAX**, an AI-powered Procurement Intelligence SaaS platform.
- Developing scalable modules for **Admin, Onboarding, and Opportunity Management**.
- Building reusable UI components using the Subframe design system.
- Collaborating with design teams to translate Figma designs into production-ready features.
- Enhancing application performance and implementing new features using React.js, Next.js, and TypeScript.

Software Engineer - I *Mar 2023 – Nov 2025*
Energetics AI

PROJECTS – React JS

SafeCommute: Employee Travel Management System
ReactJS, Node.js, Express.js, GraphQL, REST APIs, Redux, Pusher, Google Calendar API, Jenkins, AWS S3, CRM

- Built and optimized responsive frontend modules and contributed to backend logic using Node.js.
- Implemented real-time notification services using Pusher.
- Developed secure role-based access control and protected routes.

Mindn: Mental Wellness Platform
ReactJS, PWA, HTML, CSS, JavaScript, JsReport, Node.js

- Built a Progressive Web App (PWA) with offline support and caching.
- Developed dynamic report templates using JsReport.

From Around: Events, Food & Social
ReactJS, GraphQL APIs, Razorpay, JsReport, Node.js

- Integrated Razorpay payment gateway for secure donations and event registrations.
- Worked with GraphQL APIs for efficient and scalable data handling.
- Supported backend integrations using Node.js services.

Ticketing System
ReactJS, REST APIs, Redux, Tailwind CSS, Jenkins, AWS CloudFront, Node.js

- Led the frontend development lifecycle from planning to deployment.
- Developed Ticket Management, Comments, and Document Upload modules.
- Supported backend teams with Node.js API enhancements.
- Managed deployments using Jenkins, AWS S3, and CloudFront.

PROJECTS – React Native

Mindn App
React Native, GraphQL APIs, OAuth (Google, Microsoft, Facebook), Node.js

- Built secure OAuth login flows with Google, Microsoft, and Facebook.
- Managed authentication, token handling, and API integrations.

TMML (Community App)
React Native, GraphQL APIs, Node.js

- Developed community modules with reusable UI components.
- Integrated GraphQL APIs and maintained scalable mobile features.

NTL Management Suite (Driver & Vendor Apps)
React Native, GraphQL APIs, Node.js

- Developed reusable features across Driver and Vendor applications.
- Built Document History, Fuel Log, Home, and Profile Settings modules.
- Integrated GraphQL APIs and maintained scalable mobile components.

Education

Al-Ameen Engineering College *July 2019 – May 2023*
Bachelor of Engineering in Computer Science

Technical Skills

- **Programming Languages:** JavaScript (ES6+), TypeScript
- **Frontend Frameworks/Libraries:** React.js, Next.js, Redux Toolkit, React Native
- **Backend:** Node.js, Express.js, REST API Development
- **Markup & Styling:** HTML5, CSS3, Tailwind CSS, Bootstrap
- **Data & APIs:** REST APIs, GraphQL
- **Version Control & Collaboration:** Git, Bitbucket, Agile/Scrum
- **Cloud & Deployment:** AWS S3, CloudFront, EC2, Jenkins
- **Design Tools:** Figma, Subframe
